Puppy Information

Puppy Name _____

D.O.B. _____ Male _____ Female _____

Microchip# _____ Tag# _____ AKC# _____

Sire Name _____ AKC# _____

Dam Name _____ AKC# _____

_____ **Limited AKC Registration**, never to be used for breeding purposes and we recommend spay/neuter at the appropriate age.

_____ **Full AKC Registration**, the puppy seems to be of breeding quality at the time of purchase. The breeder does not guarantee that the puppy purchased will be successful in a breeding program.

Buyer agrees to pay the purchase price of _____ and 6% KY sales tax _____ or transportation costs associated with the delivery of that puppy. A deposit of \$200.00 must be paid to hold the puppy and is NON-REFUNDABLE except in an event the puppy should have any GENETIC/LIFE THREATENING health issues while in the care of the breeder. Should the puppy have any genetic/life threatening health issues, the buyer may have the choice of another puppy of equal purchase price or may choose to have the deposit refunded. Payment is to be made full and cleared before the puppy leaves the premises.

Breeder agrees to transfer all rights, privileges and responsibilities associated with the ownership of the puppy to the purchaser after 9 weeks of age or in the event that the puppy has not yet reached the weight of 2 pounds at the age of 9 weeks. The puppy will remain in the care of the breeder until the puppy has reached 2 pounds or 12 weeks of age. Breeder agrees to provide the purchaser with AKC Registration application (if applicable), proper vaccination/de-worming history record, and the proper veterinarian health report of the puppy.

The puppy will be examined by a licensed veterinarian prior being transferred to the purchaser. The breeder agrees to contact the purchaser with the result of the exam immediately after the exam is done; as of the date of delivery or pick up the puppy has received the proper vaccinations and de-wormings.

Health Guarantee

Purchaser is required to have the above puppy examined by a licensed veterinarian of purchaser's choice within **72 hours** of transfer of the puppy at the purchaser's expense and provide the breeder with a copy of the veterinarian health report or the health guarantee portion of this contract will be void.

In the event of any genetic disorder within the puppy's **first 36 months** of life which is very serious and even life threatening.

The following stipulations must be adhered to in order for a replacement to be made. Official reports from 2 unaffiliated vets stating that, without a doubt, the puppy has a genetic defect that will cause a shortened life to the puppy, and must be sent to us along with the phone number of each vet. If the puppy should die, an autopsy **MUST BE DONE** by a licensed vet stating the cause of death. The documentation must be forwarded to us before a determination will be made.

The sellers reserve the right to confirm the diagnosis with a vet of their choice. The seller will not be responsible for any expenses you may incur, including shipping and vet expenses; the seller agrees to:

- Replace the puppy with one of equivalent purchase price within 18 months or at breeder option
- Refund the original purchase price, minus the shipping and vet cost

In either of these cases the puppy must be relinquished to the breeder. Return shipping, veterinary, and testing expenses associated with the replacement of the puppy are the responsibility of the purchaser.

Purchaser must in any of these cases, willingly and openly provide documentation of tests performed, supporting veterinarian reports, and veterinarian contact information to the breeder. Purchaser understands that allowing the puppy to become overweight, over vaccinated, and failure to provide the puppy with an adequate diet, exercise, proper veterinary care, and protection from the hazards to health and development of the puppy will deem the health guarantee portion of this contract void.

There is no guarantee on color or size of the puppy now or as an adult.

The following are NOT covered by this guarantee:

-Internal parasites, such as, intestinal worms, or their effects (almost every puppy has some sort of intestinal worms; although we have wormed your puppy regularly, it takes just a few days for him/her to pick-up another "batch". That is just another part of puppy-hood, which is why a regular worming schedule is recommended.)

We recommend but do not require that your puppy to be spayed/neutered. It is your ultimate responsibility to take good care of your puppy and provide adequate food, water, shelter, and vet care. We have bred this puppy based on sound parents. Thru proper diet, proper exercise, and quality living conditions, you can play an important role in helping your puppy grow into a healthy adult.

If for any reason you are unable to take care of your Heart2Heart puppy, please contact us. We will gladly take your puppy/dog back; though no money will be refunded. We love our dachshunds and under no circumstances do we want them to end up homeless or in an animal shelter.
